

I feel this does effect my freedom of speech. The POWERFUL Lobbyists of the NAB are exercising their very well paid ability to stop XM from entering into what they think is their area. I only listen to XM and if this bill passes will boycott radio and only listen to XM by buying a home unit and listening to XM at home. Right now I am only listening to XM in my car. Please do not pass NAB's petition 04-160 for if this passes they will just keep going and enter more petitions. XM we should sign petitions counter acting this petition and show the NAB how strong we are.
